

Variable and Broad Iron Lines around Black Holes – List of Posters (1.0)

Topic: Broad iron lines and reflection in AGN	
XMM Monitoring observations of Markarian 3	<i>Georgantopoulos, I.</i>
The X-ray spectral variability of the Seyfert I galaxy MCG-6-30-15	<i>Larsson, J.</i>
Automated spectral and timing analysis of AGN spectra	<i>Munz, F.</i>
Evidence for a Broad Iron Line in the Seyfert 2 galaxy F 02581-1136	<i>Rodriguez-Martinez, M.</i>
Topic: Understanding the innermost flows around BH	
Power spectra from spotted accretion discs	<i>Pechacek, T.</i>
Topic: X-ray reflection and spectral variability	
Polarization from an orbiting spot	<i>Dovciak, M.</i>
Topic: Variable shifted lines	
Variability of the FeK line relativistic component in a sample of Seyfert 1	<i>De Marco, B.</i>
Time-resolved spectroscopy analysis of ESO 113-G010	<i>Porquet, D.</i>
