

# Exploring the clearness/cloudiness of the atmospheres of gas giant exoplanets

L. Acuña, N. Crouzet, G. Chen, E. Pallé, S. Kruk, G. Nowak, J. de Leon, J. Prieto-Arranz, F. Murgas, H. Parviainen, L. Nortmann, R. Alonso

Transmission spectrum. WASP-74b

- Low-resolution transmission spectroscopy of close-in gas giant exoplanets with the Nordic Optical Telescope/ALFOSC
- Conclusion: WASP-74b presents a Rayleigh scattering slope – Consistent with a completely or partially clear atmosphere
