

# Gaia Data Release 3

## 13 June 2022

On all the Gaia DR3 info and tools you wish you knew about  
Tineke Roegiers

ESA/Gaia/DPAC

## Three main websites

- [Data available from archive](#)
- [Info available from Cosmos](#)
- [Help and documentation available from help pages.](#)

Just released!

- [Gaia data release documentation](#)
- [Many data products](#) described from raw to scientific product
- [Large effort from many people](#)
- This would not have been possible without the work from each and everyone one of them, each being a link in a big chain.
- Please follow [our credit guidelines](#), to help increase visibility to the Gaia mission and as a credit to the work from these people

# Just released!

- [Gaia Data Release 3 papers](#)
- Link to special issue
- Papers for download
- Tomorrow papers appear on ArXiv
- Some papers come with tables.
  - In the Gaia Archive = see page
  - Also extra from papers in CDS / Vizier
- [Gaia Early Data Release 3 papers](#) still applicable to Gaia DR3.

# How to get most quickly up to speed?

- [Read our science stories](#)
- Most data products discussed
- Links to relevant papers discussing the content.

# Gaia DR3 software tools

- NEW: [Gaia DR3 software tools](#)
- Don't waste time developing these yourselves
- [GaiaXPy](#), a tool for BP/RP spectra, developed by CU5
- [Many tools for work with astrophysical parameters](#)
- Copied over useful tools from Gaia EDR3 and Gaia DR2
- Added useful tutorials regarding bulk download and DataLink

# Gaia DR3 auxiliary data

- Some [auxiliary data](#) you wish you knew existed
- Now created one page per release, with main page leading to some general auxiliary data as well.
- Contains passbands, sampling tables, cross-match tables, solar analogue spectrum, ....

# Gaia DR3 known issues

- If issues are found, they are posted on the release [known issues page](#)
- Relevant ones from Gaia EDR3 have been copied over!
- Contains description of the issue, with often a fix provided or a table of the sources affected.

# Gaia DR3 events + RECORDINGS

- Now, [events](#) across the world are organized to present the release
- More presentations this afternoon, evening and in the coming days
- Soon, also the recordings will be published on events page.

# Gaia's help pages

- [Access to many resources](#)
  - Tutorials
  - Documentation
  - Info on crediting
  - FAQ
  - How to ask questions
  - Create your own user account
- Check out the DataLink updated tutorials
- Useful query examples, including Gaia DPAC created ones.

# Gaia Data Release 3 overview page

- [Overview page](#) per release.
- Leads to all relevant information on the release.
- Updates can be made! So keep posted!

# How to be kept up to date on Gaia?

- How to be kept up to date?
- Gaia Cosmos home (news, stories, resources, ...)
- Twitter: @ESAGaia
- [Gaia Newsletter](#)
  - sent out irregularly,
  - when important news is out
  - with full overview of news since last newsletter
