

KP time in AO-6:
Recommendation from the INTEGRAL Users Group

The IUG chair recommends that the KP time be increased to 12 Ms in AO6. The KP AO6 call should include the statement that it is expected that all proposals longer than 1Ms be submitted under the KP, and the open time AO6 call include a statement that any new proposals longer than 1Ms (i.e not associated with targets in the KP fields) will need to include a justification for open time designation and that there should be no duplication of accepted KP science in the open time program.
