

European Astronomical Society Meeting

Deborah Baines, Beate Stelzer, Guido De Marchi

- Lunch session on ESA Astronomy Archives held on first day of EAS/EWASS meeting (end June)
- Meeting fully virtual (Leiden), yet very good attendance (~100 people, more than previous year's in-person meeting in Lyon)
- Talks on Visitor Programme, AAUG, ESASky
- Answered many questions, but no real discussion possibility
- Leiden will again host EAS meeting in 2021, ESA Archives lunch session already reserved; really hoping to meet in person AND with a booth!
