THE ESAC TRAINEE PROJECT 2021

ESA Student Placements at ESAC

Application deadline 10 December 2020

In view of the current situation with regards to the COVID-19, all the 2021 traineeships will be in principle carried out remotely, from the place of residence. Only in the very exceptional cases of Lab related activities it will be authorised for the traineeship to be undertaken on site.

The European Space Astronomy Centre (ESAC), near Madrid, Spain, offers a wide range of student placements (traineeships) each year. Trainees will contribute to missions such as Euclid, Gaia, INTEGRAL, JUICE, JWST, Rosetta, SOHO, XMM-Newton, and to teams such as CESAR, Galileo Science Office, IT, Space Situational Awareness.

The main types of projects we offer are in astrophysics, engineering, scientific computing, IT and instrumentation. The traineeships have a duration of three to six months and applicants should be in their final few years of an undergraduate degree or Master's degree. Go to http://www.cosmos.esa.int/web/esac-trainees/training-opportunities to apply and view the projects on offer in 2021.
